

The diagram illustrates a page layout with three distinct rectangular regions. The outermost region is a light blue rectangle with rounded corners, representing the total page size. Inside this is a magenta rectangle, also with rounded corners, representing the area where content can be placed. The space between the magenta and blue rectangles is labeled ".125" Bleed" at the bottom center. Inside the magenta rectangle is a green dashed rectangle with rounded corners, representing the area where content must be placed to avoid being cut off. The space between the green dashed rectangle and the magenta rectangle is labeled ".125" Margin" in the center, with a vertical red line indicating the distance between the top and bottom edges of these two rectangles.

.125" Margin

.125" Bleed
